

PROCEDURE REQUEST ECMO-RACE

ECMO has annually: 1 race Classic Moto Cross des Nations (CMCdN)
3 races Classic European Championship (CEC)

A request for a race is only possible if a country is member of ECMO and there is a official representative of the riders of that country. They pay every year € 150,00 member fee **before March 1th** of the current year.

Three races will take place in a country, which lies centrally in Europe; one race will be in a decentral country, like for example England, Italy, Finland, Norway, Sweden.

During the General meeting, who is held annually at the end of the race season, the races for the next year will be determined. Participants at this meeting are - beside the ECMO-board - the contact persons of the participating countries.

If a club wants to organize a race, she has to ask this before 1 august preceding the new season, sending the Request Form to the contact person of ones country. The contact person sent the requests at least **1 month before the General Meeting** to the secretary of ECMO. During the General Meeting the definite race places and race data are determined by voting with the present contact persons of the member countries.

The definite CEC-races and data will be planned one year ahead after the General Meeting, the CMCdN-race and date for two years in the future. So it has no sense to plan races several years ahead.

An association, a club or a track owner who wants to organize a race, must take full account of the require of their accommodation. Also that a good insurance must be included there. Furthermore there are extra costs, to ECMO a payment of € 300.00 must be satisfied. Moreover the club has to take care of the cups for the champions of the day of CEC-races and the cups for CMCdN-race.
